

Coding Support

Blue Consulting Services, LLC (BCS) provides medical coding services to hospitals for the following services. We employ credentialed and experienced coders to handle your medical coding work. Our certified coders will help lower your costs and improve or maximize your reimbursement through improved coding accuracy. We deliver fast, accurate and compliant coding services.

Unexpected things happen. Backlogs occur.

We offer medical insurance coding expertise across multiple specialties:

- Inpatient
- Outpatient surgery
- Emergency room
- Outpatient ancillary

Subscription Coding Support

Coding questions and claim issues are unavoidable. Having a reliable source for your coding questions will save you time and effort. When they come up, let BCS be your “go to” source for answers.

BCS can provide you and your organization with coding support on a per-question to an unlimited basis. We always back up our advice with source documentation so you can be assured the advice we provide is accurate and is defensible.

BCS can provide your organization with interim coding or coding management services when you need them the most. All of our coders are certified and have multiple years of experience to serve our clients’ needs.

Whether you need temporary help in supplementing your medical insurance coding needs or you are exploring partnering with us on a longer-term basis based on the value that our customized solution provides, we can help.

Please contact Lynette Thom, RHIT, CDIP and AHIMA Approved ICD-10-CM/PCS Trainer at 317-713-7926 or lthom@blueandco.com to discover how Blue & Co., LLC can help your organization.
