

ANNUAL LEASE VALUE TABLE

The following table is to be used for valuing autos under the "special rules." An annual lease value determined under this table remains in effect for four full calendar years following the day on which the special rule is first applied by the employer or the employee to the automobile. After four full calendar years, or if a different employee uses the auto, the auto is to be revalued. THE AUTO IS NOT REVALUED EACH YEAR. IT RETAINS THE ANNUAL LEASE VALUE THROUGH FOUR FULL CALENDAR YEARS.
